

Geneva Police Budget Advisory Board 2024 Budget Recommendations

1. We support Chief Colton's proposal to fund 1.5 vehicles, with the understanding that multiple other vehicles will go to auction, which would allow the GPD to fund the additional 0.5 vehicles, bringing the total to 2 vehicles.
2. We agree with Chief Colton's request for \$25,000 towards implementing the NIBRS management system.
3. We propose setting aside 2% or higher of the GPD budget, to initiate a task force to secure a consulting firm to determine how to expand mental health services and/or to hire per diem counselors to assist with in-person contact and reduce burden on police officers.
4. We support publication of the salary scales of command officers and rank-and-file police officers as established in their union contracts.
5. We renew and repeat the 2023 budget recommendation to "[c]onsider whether there would be other trainings that would be more valuable to the GPD than the CVSA" (Computer Voice Stress Analysis).
